

ROBERTSON GOES TO RIVER CONFAB

Attorney General Freeling Accompanies Governor to Texas.

CONFERENCE IS TODAY

Oklahomans Contend Boundary Should Be Same as in 1819.

By The Associated Press.

OKLAHOMA CITY, Nov. 19.—Gov. J. B. A. Robertson, Attorney General S. P. Freeling and members of the state land office commission left here late today for Fort Worth, Texas, where they expected to meet Gov. W. P. Hobby and other Texas officials in an effort to bring about an amicable settlement of the Red river boundary dispute between the two states.

The ownership of large oil properties on the so-called "Oklahoma side" of the Texas oil fields is involved in the question of where the Red river, as it now exists, forms the boundary line between Oklahoma and Texas. An original bill of complaint recently filed in United States supreme court by Attorney General Freeling of Oklahoma, claims that the Pacific Dog lower fork of the river as it existed in 1819 will mark the state's southern boundary.

Our Profit from all Sources

The American Public does not believe all it reads. It insists on being shown.

When Swift & Company says its profits are only a fraction of a cent per pound, many believe we are not telling the whole story—that there are hidden profits.

Here Are The Facts:

Our net profit on our entire business for the year 1918 amounted to only 1.76 cents per dollar of sales, or less than one-half cent per pound, and

1. Included profits from hides and all other by-products.
2. Included profits from all sundry side-lines.
3. Included profits on all subsidiary corporations.
4. To sum up—it included the entire profit from every source of revenue in which Swift & Company has any interest. There are no other profits.

Furthermore our accounts have been checked and certified annually by leading public accounting firms.

Swift & Company is sincerely trying to get the facts before the public. If you have any questions regarding our business—write us—and we will do our best to answer them. In discussing the packing business be sure you have the facts and that you are not unintentionally spreading misinformation.

If you get the facts we have no doubt as to the verdict.
